STATINTL

SUBJECT: Approval of ☐ ECPs, Contract FH-7322

Dear Chuck,

STATINTL

☐ ECPs 1940-17, 1940-21, and 1940-22 are technically approved by ~~one~~ SPO. Please provide the contractor with formal authority to proceed with them.

Note that there is no additional contract cost for these changes and that field retrofit of the EMRs not modified in-plant will be accomplished by ☐ personnel.

STATINTL

Regards,

Carl

MEMO FOR RECORD

STATINTL

SUBJECT: Authority for ☐ to Conduct Additional Training

STATINTL

1. On 14 September at ☐ I authorized the following additional training courses to be given:

a. A 4th session of TM-3, Ops AGE, Maintenance, to be given for Cat II personnel. Course will start about 17 October and last for 4 weeks. No preparation involved. Only charge should be the instructor's time, plus any travel. This is a Service Contract charge.

b. A 4th session of TM-9, Digital Fundamentals. This 2 week course will be given at Beale as a pre-requisite for TM-4, CPC Equipment Maintenance, and will start 26 September 1966. This is a Service Contract Charge for instructor's time only.

c. EMR Special Test Equipment. This new course covers maintenance of the more complex shop equipment. It is a 4 week course to be taught at Beale starting in January 1967. I requested an ECP for this course against FH-7322. Cost should be about \$20,000 for one session.

d. DPOD Hardware. This new 3 week course covers maintenance of the SDS 920 computer and Semi-Automatic Translator. Course will be given at Beale in February if DPOD can be moved from Edwards by then. ECP against FH-7322 was requested. My cost estimate is \$15,000.

e. SCL Programming Techniques. This is a new 2 week course for mission planners and D/I types primarily. It is planned for Beale and SAC Hq. early in 1967. ECP against FH-7322 was requested. Cost estimate here is also \$15,000.

2. In summary, I expect the FY-67 Service Contract costs to be about \$4,000 and the cost against FH-7322 to be about \$50,000. These costs are divided according to ground established by ☐ in April or May - new courses charged to appropriate production contracts and repeats of previous courses charged to Service Contract.
